Utilization Management Program

The Utilization Management standards NHP uses are to assure our members consistently receive high quality, appropriate medical care. To determine coverage, specific criteria is used to make Utilization Management decisions. This criteria is developed by physicians and meets the standards of national accreditation organizations. As new treatments and technologies become available, NHP updates its Utilization Management standards annually. To make utilization decisions, NHP conducts Prospective, Concurrent, and Retrospective reviews of the health care services our members use.

Prospective Review

Determines if a procedure or treatment either you or your doctor is requesting is both medically appropriate and medically necessary.

Concurrent Review

During the course of treatment, such as hospitalization, Concurrent review monitors the progress of treatment and determines for how long it will be deemed medically necessary.

Retrospective Review

After care has been provided, NHP reviews treatment outcomes to ensure that the health care services provided to you met certain quality standards.

Care Management

When members have a severe or chronic illness or condition, they may qualify for Care Management. NHP's care managers work one-on-one with members and their providers to find the most appropriate and cost-effective ways to manage a condition. Together, a treatment plan that best meets the member's needs is developed with the goal of promoting patient education, self-care, and providing access to the right kinds of health care services and options.

By completing the Health Needs Assessment that every new NHP member receives as part of their member kit, our care managers can identify any potential unmet needs that may benefit by care management assistance. Care managers then reach out to the member to see if they would be interested in joining one of our care management programs.

To learn more about Utilization Management or Care Management at NHP, please refer to your NHP Member Handbook or contact our Member Service Center at 800-462-5449.
