### Column Descriptions:

---

Service: Service or Request type.

Prior Authorization: Services that must be clinically reviewed by NHP and are approved subsequent to meeting established medical necessity criteria.

Notification: Services that would typically require Prior-authorization but due to their urgent nature, NHP allows notification from the rendering facility within one business day, having included any additional information that would normally accompany a Prior-authorization request.

Referral: NHP promotes a health care delivery model that supports Primary Care Provider (PCP) coordination and oversight. Only Primary Care Providers are authorized to issue referrals for in-network specialists. A referral number is required to ensure specialists are reimbursed for services rendered.

Comments: Additional clarification regarding to criteria for coverage, exclusions and/or availability coverage variances by Product when applicable.
